## Sun color

Charcoal (PMS 406)	
Blue (PMS 2707)	
Red (PMS 196)	
Orange (PMS 155)	
Green (PMS 365)	
Purple (PMS 263)	
Yellow (PMS 600)	
Teal (PMS 317)	
Purple (PMS 2706)	
Brown (PMS 726)	

- The color chart includes **APPROXIMATE PMS** numbers for a typical (thick) layer of CTI ink.
- Actual colors will vary depending on **art work, printing process, pressmen, and the substrate** being printed on. You **MUST** do a trial for your individual project to get an accurate idea of what kind of color intensity you will achieve.
- The small amount of color observed in the “colorless” or “clear” state of the screen inks is visible at thicker ink films, as with screen printing. The colorless or clear state of thinner ink films, like offset and flexo prints, have only a very faint amber color, if any at all.
